I was punched, kicked, choked I was beat over the head with ~~with~~ a mop wringer from the mop bucket. I was robbed of my personal property such as my Carters my shoes glasses hygiene I was covered in blood. The officers rushed in the pod were they housed the inmates and took me to the hospital were I received medical treatment. This will be a on going situation if I continue to stay at Ste. Genevieve County jail. when I came back from the hospital I refused to go to another pod were they house inmates because there were guys waiting on my arrival so they can do more harm. they are family members that are connected to my case and they want to kill me. I have placed in the hole lock down with out been able to use the phone to call my attorney Axd my family to let them know what happen to me. I am in so much pain with cuts in my head. I can barely stand up with alot of back pain. I'm requesting I please be transferred to a different facility due to my safety.
